

ALLCHURCHES TRUST LIMITED®
OWNERS OF ECCLESIASTICAL INSURANCE GROUP

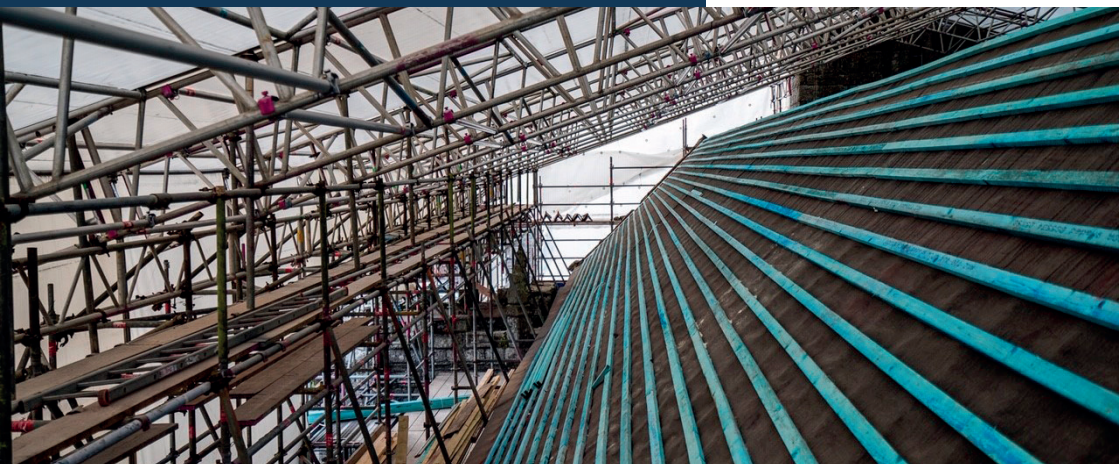

ROOF ALARM GRANTS

Allchurches Trust's Roof Protection Scheme provides grants to help churches install roof alarms in response to the issue of metal theft.

As well as extending the scheme until the end of 2020, Allchurches Trust has increased the amount of funding available, with grants now funding up to 50% of the cost of an insurer-approved alarm, up to a maximum of £2500. You can still apply for a roof alarm grant, even if you have received a grant from Allchurches Trust for a different project in the last two years, and applications are normally approved within three months.

You can find out more about our Roof Protection Scheme, apply online and learn more about group schemes at:

Protecting churches from metal theft

Grants under Allchurches' Roof Protection Scheme can be made direct to individual churches, but also through dioceses and local historic churches trusts for distribution to churches in their areas.

We advise that churches apply through one of these group schemes where possible, as some local trusts and dioceses have other funds available to add to the Allchurches' grant.
