<p>6. From the Diocese of Durham:</p> <p>a) Unpretentious but competently made 1m organ with imposing facade, 4 unenclosed speaking stops, designed for hymn accompaniment and simple voluntaries. NPOR ref. NI4997.</p> <p>b) Deserving appreciation and a future – an attractive and interesting, distinctive medium-sized 2m + pedal mid Victorian organ of unknown provenance [Bates weights], rebuilt and brought up-to-date with new frame and mechanical key actions by Harrison in 1896, with further changes (1923) sympathetic to the organ’s undoubted character. Cleaned and overhauled in 1993. Prior to church closure, the organ ably served a village congregation’s needs for over a century, providing for much variety when played solo or in accompaniment, singing out boldly and effectively in an aisleless church which seats around 150 persons.
