

Hope

'Hope is contagious. Your actions will inspire others.' Jane Goodall

- The chimpanzee expert Jane Goodall died a year ago, on 1st October 2025. She was very realistic about the state of the world, but believed she could make a difference, and worked tirelessly to protect orphan chimps and chimp habitats and fund girls' education in Tanzania. She was clear that hope is not passive; it is an active choice that drives us to change the world.
- What do you hope for in your own life, in your school and your wider community?
- Hope is not just wishing something will happen, it requires effort and commitment. Who – or what – helps you keep going when you feel discouraged or overwhelmed?

'You cannot get through a single day without having an impact on the world around you. What you do makes a difference, and you have to decide what kind of difference you want to make.'

Jane Goodall.
