

# Serendipity

- It's tempting to think that life is all about staying focused on our goals, but sometimes we need to make space for the unexpected. If we try to plan every step, we may miss out on the next adventure!
- Serendipity is about being open to new possibilities, and welcoming the opportunities that come our way.
- When have you experienced serendipity in your life?
- How can you create space to daydream, to enjoy the twists and turns of life and to embrace new discoveries?
- How can our classrooms become spaces where pupils are open and curious, and where serendipitous discoveries take place?

**“I’ve always loved life and I’ve never known what’s ahead. I love not knowing what might be round the corner. I love serendipity.”**

Twiggy

**“Unless you leave room for serendipity, how can the divine enter?”**

Joseph Campbell
